

LOCUM CONSULTANT PAEDIATRIC NEPHROLOGIST VACANCY – BRIMINGHAM UK

A locum 12 month post is available in Birmingham Children's Hospital. Closing date 15/10/2019. In addition consultant locum weeks are available between Oct and Dec with potential flexibly on dates.

The department provides a comprehensive nephrourology service for all aspects of the investigation and treatment of children with renal and urinary tract disorders, including all modes of dialysis and renal transplantation. All major sub-specialties, including liver and small bowel transplantation, are represented and there is a large PICU that is self-sufficient with regard to renal replacement therapy. The on call commitment is 1 week in 5-6.

Interested candidates will need to have GMC registration and have completed a training programme for Paediatric Nephrology or be within 6 months of attainment of CCST or equivalent.
