

## **A Call for ESPN Honorary Membership Nomination**

Dear ESPN members, dear colleagues

ESPN offers honorary membership for up to two distinguished senior members each year. It is expected that these individuals will have retired from clinical practice. They should have made significant contributions to pediatric kidney care at local, national and international level and also have made significant contributions to the work of the ESPN.

Honorary membership entitles the holder to lifetime free society membership. In their year of election, the new honorary members will be offered free registration for the annual ESPN congress.

The SOP for ESPN honorary members election is available on the ESPN [website](#)

Nomination for honorary membership will be made by any two ESPN members in good standing.

A nomination [form](#) should be completed which outlines the applicant's contribution to pediatric kidney care

Applications are returned by email to a central ESPN secretariat [address](#)

### **Deadline for nominations this year is: April 20, 2022**

Applications will be assessed by ESPN council and a decision taken at the council meeting.

Prof. Dr. Rezan Topaloglu  
ESPN President  
On behalf of the ESPN Council
