Critical Care Nephrology In Children

First International Conference of Critical Care Nephrology in Children

A unique collaboration between ESPNIC, King’s College Hospital London and Cincinnati Children’s Hospital

Date: 27th-29th August 2020 at Queen Elizabeth II Conference Centre

The conference is expected to attract more than 400 thought-leaders and decision-makers in paediatric critical care nephrology and approximately 40-50 countries across the globe. The programme curriculum and activities are designed to provide interactive educational forum for physicians, nurses and other healthcare professionals who care for children in intensive care units with critical care nephrology needs.

Programme Highlights:

27th August, 2020: 2 workshops hosted at King’s College Hospital, London
- Basic RRT Hands-on Workshop
- Advanced RRT Hands-on Workshop

28th and 29th August, 2020: 2 Day Conference at Queen Elizabeth II Conference Centre
These two days will cover a wide range of topics encountered in critical care nephrology
- Renal transplant
- CRRT
- RRT in cardiac ICU
- AKI
- AKI and RRT in neonates
- IEM
- Symposia on extracorporeal support in sepsis
- Amongst others

35 national and international experts including: Claudio Ronco, Stuart Goldstein, Patrick Brophy, Rajit Basu, Michael Zappitelli, Kim Hui Yap, Zaccaria Ricci and many others. Discussions will include keynote lectures, debates, symposia and panel discussions.
