

ESPN grant application form: Part B

Final Evaluation (to be filled in after completion of training period)

Name, date of birth : Luis Alexandre Baptista Cabral Carvalho Salazar; 11/09/1994

Place and dates of training period:

Servicio de Nefrología Infantil, Hospital Universitario La Paz, Madrid, España; 1/10/23 to 31/12/23

What have you learned (keywords)?

Management of patients in hemodialysis, peritoneal dialysis and post-transplant;

Handling of patients with chronic and acute kidney diseases, both in ward and appointment contexts

What have you NOT learned (items you consider important)? —

Have your aims been fulfilled? Definitely yes

What will you change / introduce back home?

Promote sessions with other specialties, such as Urology or Pathological Anatomy

Introduce new concepts about recent techniques and drugs used in Pediatric Nephrology

Guidance on how to follow routinely pediatric patients with chronic kidney diseases

Suggestion for training of other people:

In order to maximize this experience, I believe it is crucial to have had a previous internship in each resident's original hospital and to learn basic Spanish before coming. I've had 3 months of Pediatric Nephrology before, as well as 3 months of Spanish classes which I believe were very valuable for such a good experience here.

General comments:

I am very proud to have performed this internship in such a recognised and experienced center as La Paz. I believe that the experience and the knowledge I have obtained will be very valuable in the future that I expect as a Pediatric Nephrologist. I want to thank Dra. Laura Espinosa and all the medical and nurse staff for the kindness with which I was treated, allowing me to be part of their unit for these last 3 months.

Place; date: Madrid, 29th December 2023

Signature of trainee: Luis Salazar

Comments of person responsible for training:

Dr Salazar has collaborated in outpatients consultations, as well as in hospitalization, and in the management of dialysis and transplantation, with a very good attitude and good performance. He has also attended all the unit's clinical sessions and has actively participated in them.
